Joe Bieker

Experience

APR 2024 - PRESENT
DH Pace, Olathe, KS – Systems Analyst

- Developed PaceX, an internal platform for enterprise applications built on Oracle APEX and modern web architecture
- Collaborated with stakeholders to gather requirements and translate business processes into scalable internal tools
- Helped evolve PaceX from standalone apps into a unified platform, introducing a centralized hub application and reusable development patterns
- Architected and delivered internal applications using React + TypeScript (MUI) integrated through ORDS REST APIs
- Built workflow-driven features including approvals, notifications, file uploads, and role-based access patterns
- Implemented backend services and business logic using PL/SQL, ensuring secure and efficient data processing
- Designed database structures and workflows to support scalability and long-term maintainability

JUN 2023 - AUG 2023
Playfair Data, Overland Park, KS – Data Engineering Intern

- Collaborated with teammates to design and troubleshoot data pipelines, ensuring clean, reliable datasets for analytics
- Wrote SQL queries to transform GA4 event data into structured datasets consumable by Tableau
- Built Tableau Prep Flows and Alteryx processes to engineer and automate white-label datasets
- Developed a web portal MVP using Python Flask and Tableau's REST API, enabling dynamic access to analytics
- QA'd the data and wrote documentation on the connection process for the data

MAY 2021 - MAY 2023
Podium Education, Remote – HelpHub Specialist

- Provided tutoring in data analytics, web development, and digital marketing, maintaining a support rating of 96% across 900+ conversations
- Tutored students in Tableau, SQL, Python, HTML, CSS, JavaScript, Excel and more
- Helped manage and maintain a video database of 500+ videos

Education

AUG 2018 - MAY 2023
Benedictine College | Atchison, KS

- B.A. Computer Science

Certifications

- **Data Engineering Practitioner | Playfair Data**
- **Alteryx Foundational Micro-Credential | Alteryx**
